Curb Market — for Every City

Three Shots in the Night

They've Killed "Hildy Johnson"

A proposal for a Farmers' Market was aired Wednesday by speakers at the Kiwanis club luncheon. Whether established as a roadside mart for tourists or a shopping place for local citizens as well, this is generally known as a Curb Market — and most cities the size of Hope already have one.

Hope City Council Discusses Chance of Gas Rate Cut

Good Opportunity to
Get 30c Rate, Says
McFaddin

ACTION DEFERRED

Citizens Must Agree to
support Rate
Fight

City Attorney E. F. McFaddin told the city council Tuesday night that Hope has the best set-up in Arkansas to get a reduced gas rate.

"Hope has the distinction of being the only city in Arkansas with competitive gas companies, and the people are entitled to a 30-cent rate," Mr. McFaddin stated. He advised the council to hire an attorney and fight for the lower rate.

A petition has been filed with the Arkansas Utilities Commission asking for it. The commission meets Wednesday, July 24, at which time the petition will be given a hearing.

Company Declines Data

Attorney McFaddin pointed out that the city, with a 10-cent "gate" price available on natural gas, had sought for possible municipal plant purposes to find out from the Arkansas Louisiana Gas company its own distributing costs. The city contended that possibly 20 cents per thousand cubic feet would cover maintenance of distributing lines and other overhead, which, plus the 10-cent "gate" price, would make the consumer's price 30 cents. But the Arkansas Louisiana company refused to give the city any data on distribution costs.

The council deferred action until its members could discuss the matter with Hope citizens and get their views on financing the cost of the fight for a lower rate.

"It will take a large sum of money to fight for a lower gas rate," Mayor W. S. Atkins stated, "and the council cannot take the responsibility unless the people of Hope back it up and help finance the cost." A special council meeting will be held in the next few days to decide on the matter.

Ask Palms Electric Line
A committee of Palms residents appeared before the council and asked that the rural electric line be extended to Palms. The water & light plant franchise allows rural lines to be extended seven miles from Hope, but the proposed line would run 8.4 miles. The council instructed City Attorney McFaddin to get in touch with the State Utilities Commission and obtain permission to build the line, and authorized C. O. Thomas, city plant manager, to sign up prospective customers to be served by the line.

A motion was made and passed to pay all city bills that were in proper order.

The council passed a motion for the city to match dollar for dollar anyone within the city limits who wanted to oil the streets. Anyone seeking oiled streets is asked to get in touch with the street committee or street commissioner, in plenty of time for the department to get the proposed street in proper condition to oil. This proposition does not include labor in putting the oil down.

Dr. Don Smith appeared before the

CRANIUM CRACKERS

Symbols of Liberty
Some of the best-known symbols of United States liberty have become so familiar that we are likely to take them for granted. Here are five questions to test your information on several of them.

1. Who wrote the Declaration of Independence?

2. Who wrote the pledge of allegiance to the flag? When?

3. What is the motto of the United States? What does it mean?

4. Who paid for the erection of the Statue of Liberty? When was it unveiled?

5. Was Betsy Ross designer of the first Stars and Stripes?

County Candidates to Begin Tour at Patmos July 27th

Complete Schedule for
Stump Tour Is
Agreed on

TO END AT HOPE

Candidates Draw for
Positions on Elec-
tion Battle

Plans for Hempstead county's political stump tour were completed at Hope city hall late Tuesday afternoon when the candidates met for the second time and agreed to open the two week speaking tour at Patmos Saturday, July 27, two days earlier than tentatively announced.

The candidates held their first meeting on Saturday, July 13, at which time a tentative schedule had been arranged.

The County Democratic Central Committee met at the city hall Tuesday at which time candidates drew for positions and the official ballot was arranged. The complete ballot, giving state and county candidates and the positions they will hold on the ticket, is listed in another column of this page.

The following tour was mapped out:

1. Restricting its use to genuine farmers and to those actually living in the trade territory which means the barring of professional peddlers.

2. Prohibiting the sale of manufactured goods. A Curb Market established as a municipal enterprise and with the co-operation of the merchants must be restricted to its original purpose — the sale of native-grown produce.

The Society Editor reports great curiosity in her section of town because the populace heard three shots fired about 3 o'clock Wednesday morning.

The rumor that some political candidate, coming the county, these rainy weeks and despairing of getting farmers to listen to him because they were so busy cultivating crops, had committed suicide to attract attention to himself — this rumor, I say, is untrue.

Sing Convention to Meet Sunday

Garrett Memorial
Meeting First in This
City

The Hempstead County Singing Convention will convene at Garrett Memorial church in Hope next Sunday, July 21, it was announced Wednesday by Clifford Franks, president.

It is expected to be one of the best sessions in the history of the convention, as this is the first time that the annual session has been held in Hope.

Among those invited are several of the outstanding quartets of this section including: Wright Sisters Quartet from DeQueen, Ark.; the Blackwood Brothers from KWIK, Shreveport, La., and the El Dorado Quartet from El Dorado, Ark.

And, too, all of the Hempstead county singers and members of the convention.

In 1909 the use of tobacco spread from America around the world to America again via Spain, the Philippines, China, Siberia and Alaska.

Length of the original Great Wall of China, built in the third century B. C., was about 2,550 miles.

New Jap Army Government May Seize French-Dutch Asia Area

Prince Konoye, Who Directed First Great Thrust Into China, Now Heads Government of the Rising Sun

TOKYO —(P)— Prince Fumimaro Konoye, aristocratic exponent of a Fascist-like one-party system for Japan, plunged into political conferences Wednesday to form a new government as Japanese expansionists pressed for positive action toward the Oriental empires of France and the Netherlands.

Even the governmental crisis was not permitted to halt Japan's strides toward creating a "new order" in Asia.

Prince Konoye, who was premier from June 2, 1937 to January 4, 1939, during the period of Japan's greatest military activity in China, was commissioned by Emperor Hirohito Wednesday to head a new government.

Ask Disarming of Marines
SHANGHAI —(P)— Three thousand Japanese residents approved a resolution at a mass meeting Wednesday night urging Japanese military authorities here to demand the disarming of United States Marines unless the Marines "express their sincerity" by apologizing for their treatment of Japanese Gendarmes July 7.

Japanese Major General Minna complained that the Marines roughly handled 14 Japanese plainclothesmen they

McCarroll Attack Declared Federal Invasion of State

"U. S. Censoring State
Morals, Politics,
Religion"

SO SAYS DEFENSE

Defense Opened by
McCarroll's Jones-
boro Attorney

FORT SMITH —(P/P)— Concluding the opening defense statements to the federal court jury trying two state officials and two others on charges of a liquor transport conspiracy, the attorney for State Revenue Commissioner Z. M. McCarroll Wednesday assailed what he described as an attempt by the federal government to invade state affairs "under the guise" of charges of federal law violations.

"It is indeed a regrettable thing," said McCarroll's attorney, Charles Friserson, of Jonesboro, "if the federal government is going to undertake the task of whipping the officials of each state and entirely taking over control under the guise of conspiracy charges, income tax charges, and postal law evasions, the entire morals, politics religion and business matters in all states.

"Such indeed would constitute the end of state's rights, of personal rights, and liberties.

Attorneys' Argument
FORT SMITH, Ark.—(P)—A Federal District Court jury, selected within two hours to sit in the case of State Revenue Commissioner Z. M. McCarroll and three others on a charge of conspiring to transport liquor into dry Oklahoma and Kansas, late Tuesday heard conflicting presentations of the circumstances which led to the grand jury indictment against them.

Earlier, Southwest Distilled Products, Inc., and two of its officers entered

Threatens to Run Over Opposition; F. D. 'No Candidate'

But His Statement
Leaves Stampede
Unchecked

HOPKINS PARLEYS

Commerce Secretary's
Group Plans the
Nomination

CHICAGO STADIUM —(P)— Draft-Roosevelt sentiment blazed through this Democratic convention Wednesday with a fierceness which threatened to smother third-term opposition and leave unanswered only the question how the president is to be nominated.

As confidently as if Roosevelt had said he would accept renomination, instead of only that he had "no wish to be a candidate," Secretary of Commerce Hopkins and other third-termers gathered to map the floor strategy for making Roosevelt the 1940 party choice.

Such details as whether to have a formal nominating speech, or simply let the preponderant Roosevelt delegate strength demonstrate itself, when the roll is called shared attention in the Hopkin group with last-minute politicking of the party platform.

What Roosevelt would do when nominated remained to be seen.

F. D. Releases Delegates
CHICAGO STADIUM —(P)— Under-terred by President Roosevelt's long-awaited assertion on the third-term, a statement that he had no "desire to or purpose" to run again—the Democratic national convention loudly demanded Tuesday night that the executive be drafted for another term.

The president's statement, read to the convention by Senator Albert W. Barkley, served only to send the delegates into a prolonged and noisy demonstration, which had, but a few state standards parading the aisles, and the big crowd shouting over and over what had become its theme: "We want Roosevelt!"

Pro-Roosevelt leaders went ahead with plans to accomplish the executive's renomination, feeling certain that particularly after tonight's "big demonstration" he would comply with the convention's demand.

Indicates President Will Accept
"The president," Barkley read to a suddenly hushed convention, "has never had, and has not today, any desire or purpose to continue in the office of president, to be a candidate for that office, or to be nominated by the convention for that office."

"He wishes in all earnestness and sincerity to make it clear that all of the delegates to this convention are free to vote for any candidate."

Leaders of the "draft Roosevelt" movement interpreted the message as placing no obstacles in their path. Harry Hopkins, secretary of commerce and Roosevelt liaison man here, predicted that Mr. Roosevelt would be nominated by acclamation tomorrow night, and Senator James F. Byrnes of South Carolina, third-term floor leader, said that in his opinion nothing could delay the nomination beyond that point. The convention program had not called for presidential

Farmers' Market Outlined for Hope

At Kiwanis Meet at
Hotel Barlow Wed-
nesday

R. P. Bowen and R. E. Griffin were principal speakers at the Wednesday noon Kiwanis luncheon at Hotel Barlow.

They presented to the club a plan to build a farmers market on the highway to help move home-raised crops.

"Too much of the truck crops raised in Hempstead county are plowed under or thrown away," Mr. Bowen stated. "Hope is and may always be an agricultural city and it should help promote the sales of farm products by financing some project of this type."

R. E. Griffin gave an outlined program of this type that is now being carried on successfully in Texarkana.

The Kiwanis club has distributed milk bottles in several places downtown for the purpose of collecting funds to donate to the milk fund for crippled children. All persons are urged to donate.

COTTON

NEW YORK — October cotton opened at 9.49, closed at 9.43. Middling spot 10.63.

L. C. Stark's Name Keeps Popping Up

And for Plenty of Good Reason, Democrats Agree

By JACK STINNETT
CHICAGO—Meet Lloyd Crow Stark, gentleman farmer, convention delegate at large, candidate for the senate, and governor of the state of Missouri.

I did, and here's why. As delegates and kibitzers assembled for the quadrennial Democratic shindig, there was a lot of national defense talk. And only enough Stark's name kept popping up into it. It was "Stark would be a good man for this," or "that," or "Why not Stark?" or even "The war or navy cabinet jobs should have gone to Stark."

What was there about Missouri's tall, soft-spoken governor that had folk figuring he would be a good man in the defense set-up? I went to the record and there it was.

He undoubtedly has a distinction that no other man in the upper political brackets has today. He not only was graduated from Annapolis and served four years at sea, but he also was field artillery officer during the World war.

Stark got his stripes at Annapolis in 1908 and sailed on the U. S. S. Montana. Later, he was in charge of the Montana's star-board battery, which, under his direction, won the highest gunnery record in the navy for two years. He also did a stretch of submarine duty.

He had returned to Missouri and business when the World war came. Stark enlisted in the army, Commissioned a captain, he was promoted to

major and for part of the Argonne offensive, he had complete command of the 315th Field Artillery.

That ought to qualify any man for knowing about arms and the men on land and on water. But add this: He is an exceptionally successful business man and a politician who has battled one of the most powerful machines in any state . . . and won . . . and you have Lloyd Crow Stark.

In spite of all his going to sea and to the wars, the governor really is a country squire—just as President Roosevelt is a country squire. What the Roosevelt is to Dutchess county, N. Y., the Stark is to Pike county, Mo.

The governor, however, goes in for country squiring on a little grander scale than his long-time friend, the President. Stark has three farms and one of the largest orchards in Missouri.

He has a stable and breeds five-gaited saddle horses that frequently cop ribbons at state and national shows. He has a kennel of pure bred pointers and he goes in for registered percherons, Hereford cattle, Hampshire hogs, and sheep. That's squiring with a vengeance.

His business, before he relinquished the management to become governor, was Stark Bros. Nursery, which, he says, is the oldest and biggest nursery in the world. It has been in the family for five generations. It was the governor's father, an associate of Luther Burbank, who developed the "Delicious" apple. The nursery is a 4,500-acre establishment, has about 1,000 clerical and production employees and 21,000 salesmen.

In politics, Stark had the blessing of "Boss" Tom Pendergast, but he scarcely had gotten into office before he broke with the machine and led the fight which ended in the machine's being crushed and Pendergast's going to jail. For a while Stark was referred to as the "boss buster" but he never liked the title.

Stark led a nationwide battle to break down interstate trade barriers and got himself elected chairman of the national Governors' conference and president of the Council of State Governments, both posts that pointed him up as more than a man of mere local stature.

Stark has one of those families, too. It was an ancestor of his, Revolutionary Gen. John Stark, whose little pep talk ran: "Boys, we must beat the redcoats today or Moly Stark sleeps tonight in widow."

Convention chatter had it that Missouri's governor will be in the national picture next year—come what may.

And . . . oh yes, his home is in Louisiana, Mo.

Hope City Council

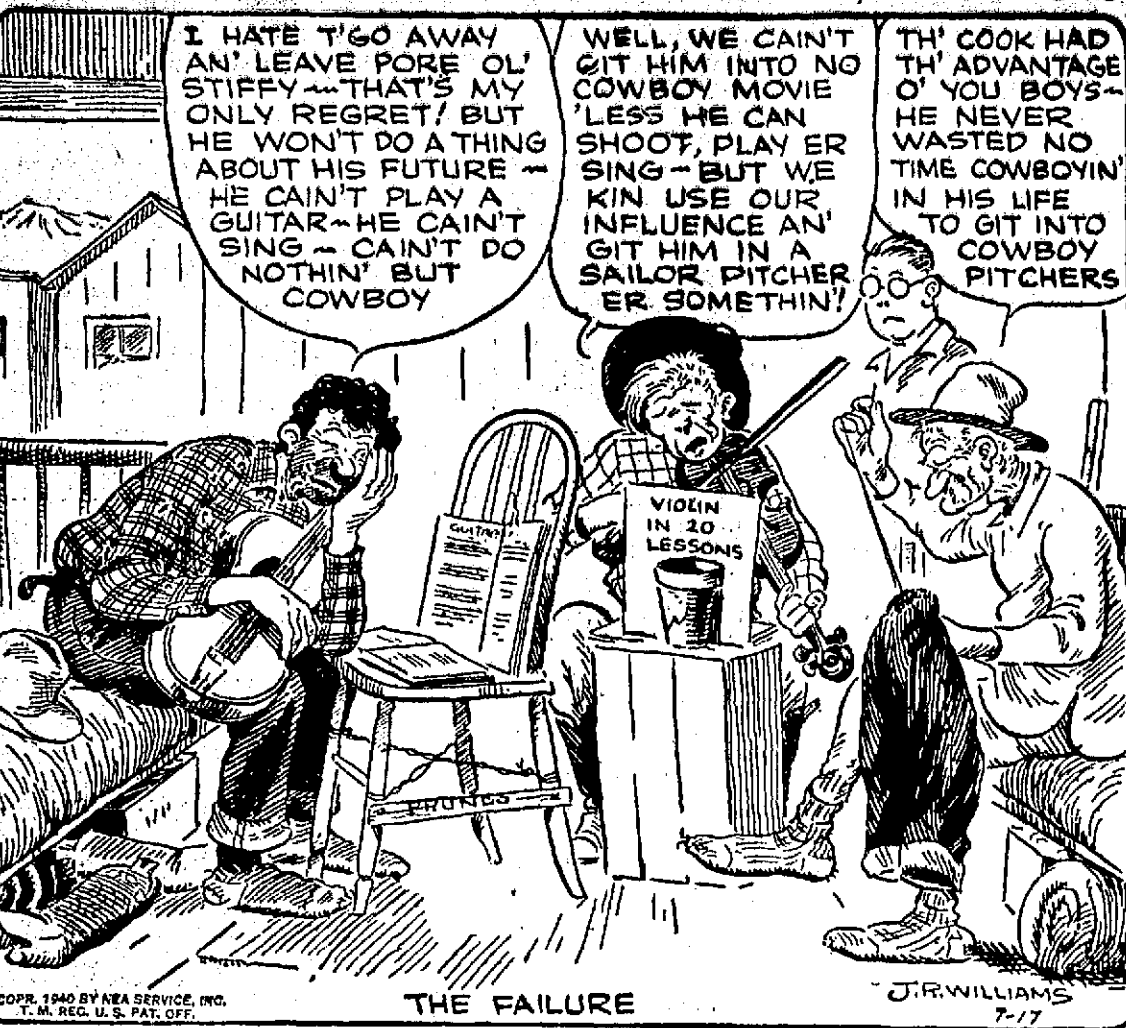

(Continued from Page One)

council and reported that an old house on Highway 67 was a fire hazard and needed to be torn down. The council promised immediate action.

The Cemetery Association asked the council to buy a small strip of land on the back side of the cemetery for a driveway. This would enlarge the cemetery. A motion was made and adopted to have the city attorney draw up a resolution instructing city employees to take down a fence, cut weeds, survey and lay the land off in lots. A committee was named to contact Jim Glenn on the purchase price of the driveway.

Jim Bowden appeared before the council in behalf of an evangelist who wanted to use the city hall for a meeting. This was discussed at length and the council decided against it. C. O. Thomas, water & light plant manager, was instructed to figure on the cost of graveling approximately one mile of road leading to the cemetery.

OUT OUR WAY

New Jap Army

(Continued from Page One)

must logically condemn the British blockade against Germany and Italy. The British blockade, the Germans held, is a violation of the principle of the freedom of the seas.

Spain, Chile in Break MADRID—(P)—Spain severed diplomatic relations with Chile Tuesday night in a surprising move against an American republic busy combating pro-Nazi elements.

The Spanish Foreign Ministry said it broke off relations because of the Chilean government's tolerance of an anti-Nationalist campaign which has "reached intolerable limits." The Chilean charge d'affaires in Madrid was handed his passports and the Spanish diplomatic representatives in Chile were ordered home at once.

The Chilean government took action Monday against alleged subversive elements, raiding headquarters of the Nationalist and Popular Socialist (Nazi) parties and ordering dissolution of "all apparently 'political' organizations" formed by "Rightists."

Chilean Interior Minister Alvarez announced Monday that documents seized by police in the raids disclosed "activities against the public order." He said street disorders had been provoked by "Rightists" and members of the Popular Socialist Vanguard movements, known formerly as the Nacista (Nazi) party, 65 members of which were killed in an unsuccessful putsch September 5, 1938.

Nine persons were arrested in Santiago Sunday, accused of setting off noise-bombs in the streets and distributing pamphlets attacking President Aguirre Cerdas for having pardoned the carabinieri who killed the Nacistas in 1938.

All this would appear to be purely an internal matter for Chile, hardly

Hickmon Elected

(Continued from Page One)

State Legion Urges Merger of Defense Units

PINE BLUFF—(P)—Walter C. Hickmon, Little Rock, meteorologist of the U. S. weather bureau, was elected state commander of the American Legion by acclamation Wednesday.

Little Rock was selected as the 1941 convention city.

Legion Resolutions PINE BLUFF—One of the resolutions on preparedness adopted by the Arkansas Department of the American Legion convention Tuesday favored consolidation of the War and Navy departments "under what would be termed the Department of Defense." There would be a secretary of defense and three assistants, one for the army, one for the navy and another for the Air Corps.

Another resolution sought for a federal school for the training of personnel and the establishment of a counter-espionage system as a part of the nation's permanent defense system. Another urged congress to enact laws to prevent delay in manufacturing supplies "either directly or indirectly occasioned by a demand on the part of either capital or labor to meet exorbitant profits from defense measures."

The Legion would have congress amend laws affecting aliens by providing that before a registered alien can move from one community to another he must first obtain authority from a constituted federal authority "in which said authority it must be stated where he proposes to go and what he proposes to do, and that said amendment also require said registered alien to report to such authority each 30 days on what he had been doing during said period."

Featured speaker was O. K. Armstrong, Springfield, Mo., member of the national Foreign Relations Committee. He discussed the Legion's attitude toward involvement of the United States in war. Referring to a resolution adopted by the national convention at Chicago last year, in which the organization "insisted" that this country be kept out of war, Mr. Armstrong said that this had been the policy of the Legion for the last three years.

Annenberg Stay Is Denied by Court

Publisher to Go to Prison for Evasion of Tax

CHICAGO—(P)—Federal Judge James H. Wilkerson Wednesday denied M. L. Annenberg's petition for probation.

Annenberg is under sentence to serve three years in prison for violation of the income tax laws.

The court also denied a motion for a six-weeks extension of Annenberg's stay of execution. Wilkerson sentenced Annenberg July 1, at which time he was granted a stay until July 22.

warranting the breaking off of diplomatic relations with Spain.

Chile had jumped into the headlines Tuesday when Foreign Minister Saenz disclosed he was studying a note from the United States on establishment of a protectorate over European possessions in Latin-America.

He gave no details, and it was considered probable the note related to proposals advanced by Latin-American countries for such a protectorate rather than to any proposals originated by the United States.

Spain has no possessions in this hemisphere, and apparently would not be concerned in a protectorate plan. Observers noted, however, that Spain's Rightist government is extremely friendly with Germany.

Theodore Roosevelt was the youngest President when he was inaugurated at the age of 42.

By J. R. Williams

M'Carroll Attack

(Continued from Page One)

plans of male contenders and three other persons named in the indictment pleaded guilty, thus removing themselves as defendants on the second day of the trial.

Remaining before the court with Mr. McCarroll were Deputy Revenue Commissioner Butler Toland, Joseph W. House, Little Rock attorney, and Dave Sherman, manager of the Little Rock wholesale liquor house of F. Strauss & Son.

Charges "Payoff"

Elaborating on a government bill of particulars filed with the court last night, District Attorney C. R. Barry told the jury in his opening statement that an alleged payoff by persons associated with Southwestern in connection with operations which he described as illegal amounted to \$2,500 monthly, and this payment had been made periodically in the summer of 1939 to Mr. House "to be split 50-50 with McCarroll."

Mr. Barry pictured Mr. Sherman as the man who had brought the alleged conspirators together; said that "the genius of Joe W. House was called into play to work out the plan of operations"; charged Mr. McCarroll had granted "the Southwestern" operators special privileges, including exemption from the state's wholesale liquor taxes, and alleged that Mr. Toland functioned to have liquor runners who patronized Southwestern released after they had been caught by county or city officers.

"Mr. Cole and George Dixon of Sulphur Springs, Mr. Barry said, 'hid the name of Southwestern' under a private contract to operate a business for the benefit of the Oklahoma and Kansas bootleg trade.

Mr. Barry charged that at a conference in Mr. House's law office, there was a discussion of "how much money it would take to fix the state revenue commissioner," and that Mr. Sherman later reported to others allegedly involved that "it is all set to pay House \$2,500 a month, to take care of the revenue commissioner and everybody else." He said the government had no witness to any payment to Mr. McCarroll.

Mr. Barry charged that Mr. House had implied the Southwestern operators would be free from interference by both state and federal officers.

When runners were stopped by Arkansas officers, Mr. Barry charged, the runners were under instructions to telephone the liquor house. He alleged the liquor house then reached the Revenue Department and that it in turn arranged by telephone for such cars to be released.

He said testimony will be offered that in one instance, when a car was stopped in Franklin county, Sheriff Champ Crawford refused to release the car and driver on a "phone call from Mr. Toland, advising Mr. Toland to 'let it to a judge'."

He charged that on one occasion, a squad of state Revenue Department officers, including Frank Bailey, son of Gov. Carl E. Bailey, was sent to the Sulphur Springs vicinity to "knock off" rum-runners who had patronized competitors of Southwestern in nearby states.

Southwestern, its chief officers and agents earlier in the day abandoned all defense of the conspiracy charge.

Conspiracy Charges "Absurd" Attorney Grover Owens of Little Rock, representing Mr. Sherman, replied in the first of the defense presentations that the government had "used its imagination" to twist normal business and professional relationships into erroneous conclusions and the appearance of an illicit scheme. He described the conspiracy allegations as "absurd and ridiculous," denying that any of the defendants be fore the court had entered into any conspiracy.

Of the alleged installment payments to Mr. House in 1939, Mr. Owens said that James Cole, then manager of Southwestern's Sulphur Springs branch, owed Mr. House a \$6,000 professional fee for legal services and that he had paid Mr. House in installments through Mr. Sherman, who drew drafts on Mr. Cole from time to time.

The only relation between Mr. Cole and Mr. Sherman, he said, was a customer relationship. Mr. Cole having bought large quantities of liquors from the Strauss concern "in the

Ozen PTA to Sponsor Supper on Saturday

An ice cream supper and community party will be sponsored by the Ozen PTA Saturday night, July 20. The proceeds will be used for the hot lunch project.

Oren Harris, candidate for congress, will be a guest speaker. All county candidates are especially invited.

course of entirely legitimate business dealings."

Mr. Owens expressed belief that the Southwestern people who changed their pleas earlier in the day will take the stand as government witnesses.

High Standings of House

Judge J. H. Hill of Fort Smith, appearing for Mr. House, said that the Little Rock attorney's distinguished background, the standing of his law firm of Muses & House as legal representative of some of the state's largest industries, should give notice to the jury that "he could not have been associated with thugs and bootleggers in any liquor conspiracy."

He said Mr. House had been retained in a legal capacity by the Wholesale Liquor Dealers Association of Arkansas prior to March, 1939, and subsequently became an attorney for Southwestern in obtaining its permit at Sulphur Springs. Judge Hill said that Mr. House billed James Cole for \$8,000 for legal services in 1939, and was paid in installments extending over a period of several months.

He said that Mr. House "advised Southwestern how to conduct a legitimate business," and had no knowledge of any law violations by the company or its agents.

Attorney Dave Ford of Fort Smith, speaking for Mr. Toland, said the deputy revenue commissioner faced the court "confident on the basis of long and faithful service to the state."

He said that Mr. Toland was called from time to time concerning cars that had been stopped over the state with liquor loads, "and he carried out the law as he understood it, acting on the advice of Revenue Department attorneys in advising local officers that if the liquor was tax-paid, and proper invoices and permits accompanied the shipment, the state had no claim on such liquor."

Attorney Ford said testimony would show that some of the incidents charged by the district attorney, including the alleged plan to "knock off" liquor cars having loads from Southwestern competitors, "just didn't happen."

Threatens to Run

(Continued from Page One)

balloting before Thursday.

Senator Claude Pepper of Florida said Roosevelt "is the people's candidate and they will have no other."

"If necessary, we will stay here until November nominating Roosevelt until the call of duty in a time of his country's travail cannot be denied—

for he is an American," Pepper said. Representative McCormack, chairman of the Massachusetts delegation, said the American people "demand" a third term "because they recognize that Roosevelt has not only given the people the finest service during the last eight years but world conditions demand it."

Louis J. Brown, chairman of the Maine delegation, said "I believe the president will be drafted by the convention."

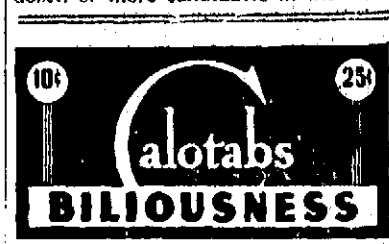

Senator Bennett Clark of Missouri, a third-term foe, remarked that "the president cannot draft himself," and added "I don't know whether this means his elimination but what delays here tonight will tell."

CHICAGO—(P)—Secretary of Agriculture Wallace and Louis Johnson, assistant secretary of war, were reported Tuesday night to be acceptable to President Roosevelt as possible Democratic vice presidential nominees. Word that Mr. Roosevelt would be satisfied with selection of either of these two members of his "official

family" spread shortly after Johnson returned from Washington and a 10-minute private conference with the executive.

Cautiously the reports were not linked with the third term movement or the probability that Mr. Roosevelt talked with Johnson in his capacity as head of the Democratic party.

Persons close to Johnson said they understood the president had indicated he would be satisfied should either Johnson or Wallace win out over the dozen or more candidates in the field.

Travelers Defeat Memphis Chicks 5-1

Jim Prendergast Allows 7 Scattered Hits

MEMPHIS, Tenn.—The Travelers waved their jinx over the Chicks Tuesday night and won another, 5 to 1.

The chief waver was James Prendergast, the left-handed pitcher, who not only held the Chicks to seven well-scattered hits, but drove in two runs with a triple and a single, quite enough to beat the Tribe.

Meanwhile Little Rock was taking picks on Joseph Roxbury, the right-hander with the alleged fast ball. He lasted until the sixth, was lapped six times and charged with the loss. Joe Kohlman finished it and although he allowed five hits, the only run off him was unearned.

Personal Mention

Miss Margaret Ashley of Greenville, Mississippi is the guest of Mr. and Mrs. Roy Allison. Miss Ashley and Mr. Allison were roommates at Southwestern in Memphis, Tennessee.

E. N. Bacon is the guest of his brother, T. J. Bacon and Mrs. Bacon in Orlando, Florida.

Mrs. William McGill of Lewisville will spend Wednesday with her parents, Mr. and Mrs. T. R. Billingsley, and other relatives and friends in the city.

Mrs. T. A. Womble of Arkadelphia was a Tuesday visitor in the city.

Miss Kathleen Branch and Miss Marie Antoinette Williams attended the Methodist camp at Fenciliff last week.

Miss Marilyn Steffens of Malvern was the Tuesday guest of Miss Mary Cornelia Holloway. The young ladies were roommates at Texas State College for Women at Denton, Texas last year.

Miss Martha Houston left Monday for an extended visit with friends and relatives in New Albany, Mississippi. While there she will attend the four-day celebration of the founding of New Albany one hundred years ago.

Mrs. J. M. Houston and Miss Nancy Ruth Carrigan were Tuesday visitors in Texarkana.

Mrs. Alton Honeycutt and young son will leave Thursday for a visit with Mr. and Mrs. J. O. England and Mr. and Mrs. Wayne England in Tyler, Texas.

Miss Micket Boyett and Miss Mary Helen Crosby will leave Wednesday for a visit with friends in Prescott.

Mrs. Evan Wray, Mrs. Charles Dana Gibson, and Mrs. Frank Johnson are the guests of friends in Little Rock this week.

Mr. and Mrs. W. C. Page have had as house guests Mr. and Mrs. H. O. Page of Corinth, Mississippi, and Dr. and Mrs. Frank Gambill of Yalga, Tenn.

Mrs. Terrell Cornelius, Mrs. Lloyd Spencer, Mrs. E. M. McWilliams, and Mrs. Jim Henry motored to Little Rock Tuesday. Mrs. Spencer did not return with the group, but will remain in Little Rock this week.

Mrs. M. A. Holt had as Monday guests, her brother Ed Hervey and Mrs. Hervey of Pine Bluff and Mr. and Mrs. Julian Holt of Cleveland, Ohio.

David Coleman of Little Rock is the guest of Tommy Turner this week.

Mrs. Lamar Cox has returned from a visit with friends and relatives in Ashdown.

Mrs. Florence Sutton and Mrs. Kel-

BARBS

American road signs notwithstanding, the French will tell you there's no justice of the peace.

Defense tax is proposed of \$1 for each letter over six in people's names. That noise you hear comes from all those hyphens being dropped back east.

Japanese want U. S. marines to apologize, but not in Nipponese manner, which is to say, "So sorry, please," on the right hand while repeating the offense with the left.

Wife of Massachusetts man named Drinkwater sued for divorce on ground of intoxication, or failure to live up to his name.

Since they overlook no details, it is assumed the Nazis have already informed tank units that vehicles travel on the left in London streets.

Tax revenues from operation of motor vehicles today exceed the total of federal, state and local taxes in 1896 when the automobile was a sideshow curiosity.

ly Bryant were Sunday visitors in Texarkana.

Mrs. Basil York has returned to her home after a visit with friends and relatives in Arkadelphia.

George Hudson and J. D. Hendrix of Beaumont, Texas have arrived in Hope for a visit with their respective parents, Mrs. I. W. Hudson and Mr. and Mrs. R. L. Hendrix.

Mrs. Jewell Moore and daughter, Miss Dorothy Moore, Miss Frances Simms and the Misses Edna and Helen Marie Franklin were Tuesday spend-the-day guests of Mr. and Mrs. Kenney McKee in Garland City.

Mrs. H. F. Herrell and children of Shreveport, La. are visiting Mr. and Mrs. I. J. Sutton.

McCASKILL

Mrs. Jean Taylor and children of Dallas, Texas, are here for a visit with her aunt, Mrs. J. D. Eley.

Little Miss Lena Mae Forshee of Nashville, spent Friday night with Carolyn Wilson.

Mrs. J. O. Harris visited relatives in Nashville Tuesday afternoon.

Mrs. Wilton Wardlow and children of Victoria, Texas, visited relatives here last week.

Miss Arline Wortham of Prescott spent a few hours with home folks Thursday night.

Mrs. H. C. Wilson was a Nashville visitor here Tuesday afternoon.

Mr. and Mrs. Ray Cullenpepper visited relatives in Nashville Saturday night.

Mr. and Mrs. Joe Cooley of Highland were calling on old friends here Friday afternoon.

Mrs. Chester McCaskill, Misses Janette McCaskill and Grace Wortham were Hope visitors Friday morning.

Bob Sikes Evens With Comiskey's

Knocks Out Bill Comiskey in the Third Round

PINE BLUFF—Bob Sikes wrapped up all his respect for the Comiskey family into one left hook and knocked out Bill Comiskey in the third round at the American Legion stadium here Tuesday night. Thus the Southern heavyweight champ partially avenged the one round kayo by Pat Comiskey, Bill's younger brother, in Jersey City two weeks ago.

Sikes was a little more considerate of Brother Bill than hard-pasting Pat was of Bob a couple of weeks ago. Bob waited until the third round, but it was a whole lot more impressive than the younger Comiskey victory.

The opening round was about even, but in the second Bob came out of his corner like a CCC enrollee charging the dining room. He hammered Comiskey all over the ring.

Sheridan to Take on Bruner Here Thursday

The Bruner-Ivory softball team will play the Williams Lumber Co., team of Sheridan a doubleheader at Fair park Thursday night.

The Sheridan team managed by Oliver Williams formerly of Hope, dropped a doubleheader to Bruner two weeks ago.

The public is invited and a large crowd is expected.

Some of those fifth columnists seem to have hunched their own pan-American movement.

New Steel Process Will Reduce Cost

Two Different Metals Are Made Into a Solid Unit

By HOWARD W. BLAKESLEE
Associated Press Science Editor

NEW YORK — American metallurgists have invented a new process which forms Siamese twins out of two entirely different kinds of steel.

One side of the metal is a different type of steel from the opposite side. Yet both are a single, solid unit, with no sharp dividing line between them.

The new process was invented by the Allegheny Ludlum Steel Corporation of Pittsburgh and the W. M. Kellogg Co. of Jersey City, N. J. It was designed to join stainless steel, so that one face is the high-quality, rustless metal, while the other, and usually the bulk of the metal, is low-cost, ordinary steel.

Not only have stainless surfaces been created in this way, but hard tool steel has been overlaid on a basis of

mild, less expensive metal.

A secret new electric furnace does the winning. In it the highest, coating metal is poured molten on the other steel. The latter is not all melted, but only a thin layer to merge with the molten coating poured upon it.

The result is like putting frosting on a cake—with the top portion of the cake still dough when the frosting is poured.

Where the two metals meet, they fuse into a union which all sorts of twisting, pulling, breaking, hammering and heating have failed to destroy. The Allegheny Ludlum reports that the stainless, or other coating, never peels off in these tests. The metal break only like a single piece, with no reference to its Siamese strip.

Moreover, if the coating metal is stronger than the other, the fused piece is strengthened just in proportion to the volume of the coating.

Railroads now own or operate more automobile trucks than locomotives.

Speaker Is Here in Interest of College

A representative of Harding college will speak at the Church of Christ Wednesday night concerning the school and the work that it is doing. The purpose of the meeting is to let the people around here and other towns know something of the school and to encourage young men and women to choose Harding for their future school work. Everyone is invited, especially those young people who are planning to go to college within the next few years. Services will start at 8 p. m.

this policy in the news columns to pro-
tect their readers from a deluge of space-
taking memorials. The charge is for the
publication of the safe-keeping or return
of any unsolicited manuscripts.

Billions Are Not Bullets

The appropriation of another hun-
dred billions for national defense is
quite all right. The American people
are in earnest about this prepara-
tion thing, and nobody cares much
what it costs, provided we get what
we need and get it in time.

Further categorical assurance by the
President and administration leaders
that none of this arms establishment
is destined for service in Europe, but
only in resolute defense of the western
hemisphere, is just what the country
needed. It melts away the last objec-
tion that anybody could make to go-
ing ahead full-steam, with the mili-
tary program.

The principal danger in all these
astronomical appropriations is that (1)
They may crowd one upon another
faster than sensible plans can be
devised to spend them well, and (2)
People may be so bedazzled by the
sums themselves that they will tend
to think of rearmament as already
achieved.

It is not, of course, and it will not
be for many months not in complete
form for a period of from five to se-
ven years.

Some things can be done immedi-
ately, and they are being done. There
are reorganizations, shifts of existing
force, sharpening up to the National
Guard, recalling of reserve officers,
and increased production of many
items where capacity exceeds present
production.

But the great bulk of the pre-
paredness effort will become ap-
parent with a rush only after a year
or more has elapsed. A graphic rep-
resentation of the U. S. armament
effort during the World War shows
that for many months after war was
declared, military production rose but
slightly. Then, as new plants and
production facilities took hold, pro-
duction soared suddenly upward.

So it will be today. We must
not be impatient, nor suddenly con-
clude that the effort is weak because
it takes time. It is a little like the hen
and the egg. You set the hen on the
egg. It takes 21 days for the egg to
hatch. If you want more chicks,
you might set 40 hens on 40 eggs,
but you still don't get even the first
chick until 21 days are up.

So with a "power factor" you shall
think of which we have virtually
none. First you must build the plant.
That takes from six months to a year.
You may decide to build 40 plants.
But you still don't get any powder
or shells until those initial months
are past and production begins.

This armament business requires
patience as well as un-remitting fol-
low-through. Not a moment should
be wasted, but let no one expect a
miracle. Even France didn't get that.

Answer to Cranium Cracker

Questions on Page One

1. The declaration was written by Thomas Jefferson, with subsequent revision, by Benjamin Franklin and other members of the Continental Congress.

2. Francis Bellamy, a Boston magazine writer, composed the pledge to the flag in August, 1892.

3. U. S. motto is E pluribus unum, which is Latin for "one out of many."

4. Donations by the people of France paid for the statue: donations by Americans for the pedestal. It was unveiled Oct. 26, 1886.

5. No, Betsy Ross was a flag maker. Although its exact origin is obscure, the Stars and Stripes was probably designed by Francis Hopkinson, a signer of the Declaration of Independence from New Jersey.

(battles).
In the 20th century the French have already had the first World war, the Moroccan campaign, the second World war.

GOLD RUSH of '40

Like the refugees, a precious metal takes to flight to a safe haven in the U. S.

JUST nine years less than a century after the famed gold rush of '49, the United States is again the scene of another gold rush. The two rushes, however, bear little similarity. This time instead of men digging up the gold, they are burying it—deep within the strong vaults of the government Federal Reserve Banks.

Almost every new ship that arrives from war torn European countries brings in gold as part of its cargo. Day after day vast amounts of the bright metal complete hazardous ocean voyages and arrive intact. Just recently, within the short space of three days, a record was set when \$527,000,000 in gold was received from Great Britain and France to prevent seizure by invaders.

As the hordes of terrified civilians have streamed out of the path of the Nazi steamroller armies, so has the

frightened gold come hurrying from everywhere in search of safety in America.

At the beginning of the year, the United States had eighteen billions of the world's twenty-five billions of gold reserves. Now we have nineteen and one-half billions in gold here, the difference having arrived from abroad in recent months.

As soon as the gold arrives it is placed on closely guarded armored trucks and quickly transported to the Federal Reserve Bank in lower New York City. Government employees then unload the valuable shipment and remove the wooden cases in which the gold ingots are packed. The small bars are carefully weighed, checked and stored away behind steel-barred doors where lights burn day and night and vigilance is unceasing.

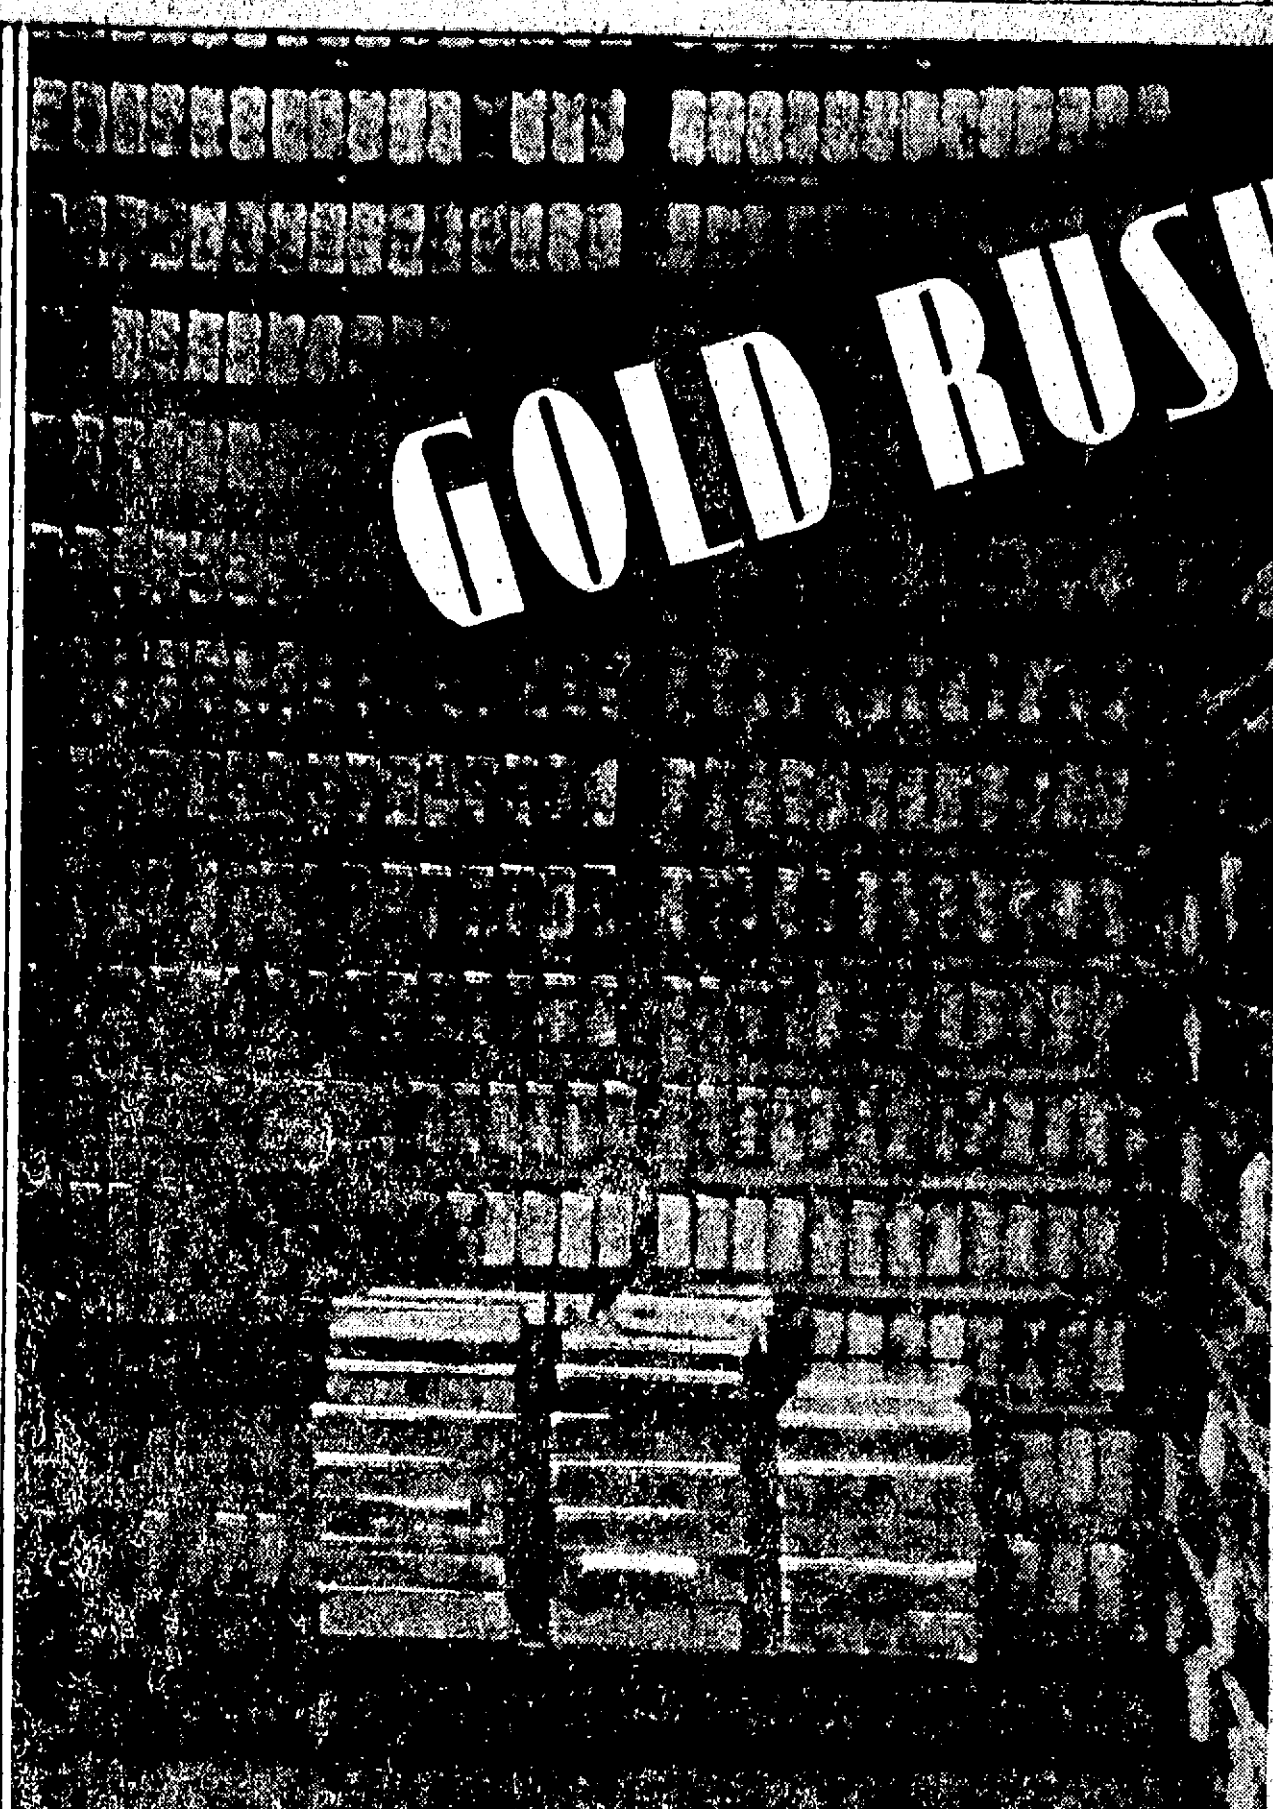

As the war continues it is expected that more and more gold will be sent to this country. There seems to be little doubt in official quarters that the steady stream of money will continue to pour into American ports for some time to come.

Economists have been watching with interest the vast shipments of gold. They expect such shipments eventually will force the nations concerned off the gold standard. As they see it, the overwhelming exigencies of war drive a country to supplement its tax revenues by borrowing money on a grand scale. The amount that can be borrowed from investors is limited to what they can be induced to save. It may not be enough.

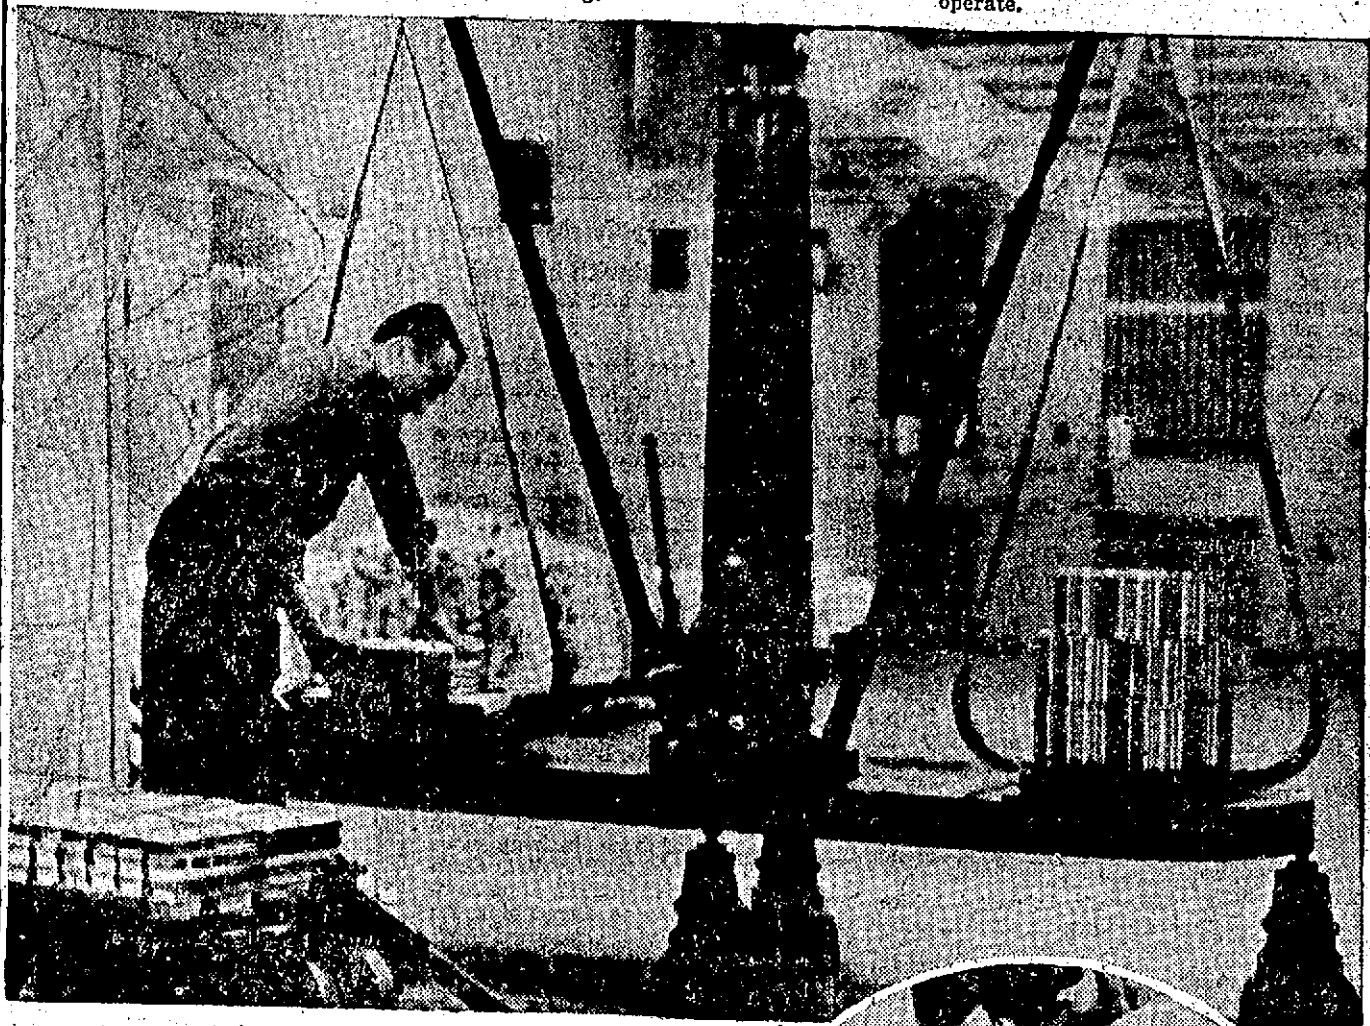

The government can neither relax its methods nor leave its liabilities unpaid. It has to borrow more. Since banks create credit by lending, they create the means of payment out of nothing—and inflation occurs.

Immediately the income and outlay of the nation's consumers is swollen, consumption is stimulated, stocks of goods are drawn on, prices rise and the foreign exchanges become unfavorable. There results an outflow of gold.

The accepted method of stopping an outflow of gold, a contraction of credit, is not available, and it becomes impossible to continue to provide gold for export. Either the convertibility of paper money into gold is suspended or the export of gold is prohibited; in either case the gold standard ceases to operate.

A Corner of the U. S. Federal Reserve Bank in New York, Above, Showing the Foreign Gold Ingots Piled Row Upon Row. At Right, a Government Employee Carefully Weighs Part of a Recent Shipment.

Tillie Could Spend Hours Arranging Her Blonde Curls in the Latest Hair-Do and Nosey Would Never Notice the Change.

By Dee Randall

IN the two years of their married life, Tillie had found the only fault with her husband. He was too wrapped up in his work.

Tillie could spend hours arranging her blonde curls in the latest hair-do and Nosey didn't see the change. A new bottle of alluring perfume, guaranteed by the saleslady to bewitch any man, had no effect.

Yes, Nosey Collins of the Daily Gazette was a hundred percent newspaper man. The pungent odor of printer's ink was the smell he loved. A new set up, or change of type, intrigued him. The hustle bustle of the city room thrilled him! A beat on a story elated him! But fussy frills, as Nosey called them, left him cold.

Many times Tillie turned from a per-

fectly groomed hero of a collar ad and sighed with despair. "Nosey," she'd plead, "why don't you give that hat to the Smithsonian?" and urged him in the direction of the nearest store.

"Aw, honey, why don't you let me be?" Nosey was adamant. "This hat's okay. I've only worn it two years."

"Yeah," Tillie was disgusted, "two years since we're married, two years while we were engaged and goodness knows how long before that."

"Well, there's nothing the matter with it, is there?" Nosey patted the hat fondly. "It's a sort of lucky charm for me. Remember, I wore it when I met you? And it's gone right along with every promotion I had on the paper."

Nosey shuddered to think what would become of him without his trusty bowler.

Potpourri

Tillie learns a rose by any other name would smell as sweet

"Remember the time you sent it to the cleaner? What happened? I fell down the cellar steps and that boob reporter at the Star beats me to it on a story."

"Naw, Benny and me is pals. We're always going to stick together. Just like you and me, sweetheart."

Tillie cuddled up adoringly. Nosey was certainly clever and a wonderful husband. So you see, while Nosey cut no picture of dashing elegance, Tillie loved him with all her heart. She didn't know how she could ever live without him.

This perfect wedded bliss of the Collins', however, was due for a shock. It started, Tillie calculated, from the time the Gazette took on the new beauty editor, Flora Femme.

Nosey was lush in his praise of the clever charmer that had entered the hitherto completely male menage of the City Room. "So clever," Tillie scathed, "her name should be Pulitzer."

Along with the change in Nosey, he took interest in Tillie's appearance. Instead of offering praise, he was critical. "Why don't you select something simple," he suggested, "with lines? A pretty blue, for instance. Red's not your color."

"Miss Flora Femme must be one of those nondescript blue-eyed types," Tillie seethed, "always swathed in blue to bring out the only coloring she had."

There was a complete renovation in Nosey's appearance. Broadway striped shirts and ties were put aside for immaculate white. Baggy trousers were replaced with a perfect crease. A daily shine and fresh carnation every day for his button-hole vied for Tillie's attention. But when he tossed aside old Benny and blossomed forth in a new homberg, Tillie knew things had taken a serious turn.

Nosey was at home less and less. A new advertising campaign at the office, his excuse. To while away some of the time on her hands, Tillie began reading Flora Femme's column.

"One must dress up to success," Flora's column read. "Admiration and the assurance we are well groomed will do wonders for anyone."

She read further, "The use of a smart perfume is an important accessory in the psychological attainment of success and popularity. Rose Geranium is one of these

inspiring aromas. Personally, I always use it myself."

A lush odor pervaded Nosey's clothes that night Tillie sniffed. An embarrassed red mounted Nosey's high forehead. "Rose Geranium," he said lightly.

Tillie made no answer. Through a sleepless night, she searched for the answer, but knew there could be only one.

Flora Femme and Rose Geranium! Flora Femme and Nosey!

Tillie didn't cry or reproach Nosey. Just packed her bags. At Penn Station she boarded the train for Sea Bright. Aunt Ellen would be glad to see her and it was a place to stay while she tried to gather herself together.

The little tears that sprang to her eyes were no comfort. The miserable sick feeling anguished her.

The fact was Nosey didn't love her any more. He couldn't even make a good job of covering up his infidelity.

When Nosey arrived home to find no Tillie, no warm supper, no inspiration, no nothing, he just crumpled helplessly. Frantically searching the past, the key to the tragedy dawned on him.

Tearing the closet apart, he found his old Benny. With it, some of his old ego returned. Everything would be all right.

On the train down to Sea Bright, he handled the idea of turning in his resignation. The thought of Flora Femme sickened him.

Of course, the Chief had given him the assignment of handling the new perfumed ink advertising because he recognized the fact that Nosey was a good man. Getting dolled up to call on perfume manufacturers had been bad enough, but when the boys started calling him "Sissy," "Cutie" and "Rose Geranium," the campaign was unbearable.

When Nosey reached Aunt Ellen's cottage at Sea Bright, he found a dewy-eyed Tillie sunning herself on the beach.

"Why, Nosey," she greeted him, "you're wearing your old hat."

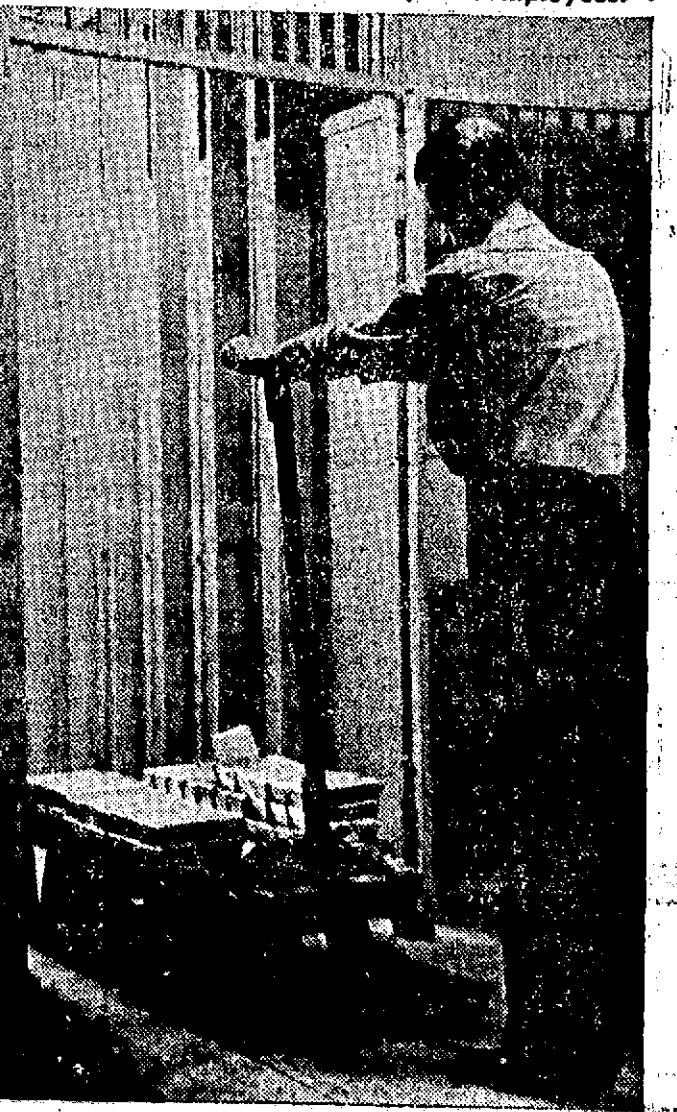

"You bet," he grinned, "I can't take a chance on leaving that off again. Look what happened. I almost lost you."

"Almost . . . ? You have lost me, Nosey. You can't have me and Flora Femme too."

"Flora Femme?" Nosey laughed. "Haw, haw, why, honey, that's me—but promise you won't tell anybody."

Each of the Newly Arrived Ingots from European Countries Is Carefully Checked by U. S. Employees.

A Steel-Barred Door Leading to Strong Vaults Swings Open and the Ingots Are Stacked Away.

SERIAL STORY

FLYING CO-ED

BY MARY KINNAVEY MOORE

COPYRIGHT, 1940,
NEA SERVICE, INC.

YESTERDAY: Saved from death by Dick's quick action, Anne is surprised when the instructor re-buys her for carelessness. She leaves with Tony as Dick and Georgette take off. Tony begs Anne to drive to North Point to marry him. She agrees, gets her clothes from the sorority house, leaving a note for Georgette, in a few minutes, Anne is on her way to North Point and her wedding.

CHAPTER III

SO this was what real flying was like, Georgette thought happily as she and Captain Douglas landed. It was true that she had spent weeks learning any number of things about flying, but most of her instruction periods had been on ground work.

She had heard lectures on clouds and cloud formations and what they indicated as to weather conditions. She had read books on the theory of flight, the history of flying, and she had thought of instruments until she saw them in her sleep. But this learning to handle the controls of the ship herself and putting it through various maneuvers was different. It was real. It was thrilling.

"You'll uphold the family's flying honor," Dick Douglas told her. "How'd you like it?"

She grinned back at him, "You might have known I'd be crazy about it."

"I suspected it," Dick told her. He frowned, and added, "Too bad your red-headed friend quit on us."

Georgette's face clouded. "She hasn't really quit," she protested. "Anne's quick-tempered, and she's impulsive, but she'll be out here with me tomorrow."

"Well, she'll have another chance," the tall, fair-haired pilot said quietly. "But you might tell her, this is no place for prima donnas."

"Don't worry about Anne," Georgette said confidently.

AS she drove away from the airport, however, she felt a little less sure. That combination of quick temper and impulsiveness was always leading Anne into mistakes. Georgette only hoped it would never lead her into a serious one.

Driving back toward Midland University, however, she forgot Anne's recent behavior in the glow of enthusiasm over flying. That sudden feeling of exhilaration when Dick had taken his hands off the stick, his feet off the rudders, and she had realized that she herself was flying! It was a moment she would never forget. She could hardly wait to tell Anne all about it!

Her dark eyes shining, she hurried into the house and up the stairway bursting into their room—and stopped short.

The room looked as though a cyclone had passed through it. A drawer of Anne's dresser was half open, filmy stockings and lingerie littered the bed, a discarded skirt and sweater—the clothes Anne had worn to the airport—were in the middle of the floor. But Anne was not in the room.

Almost instinctively, the dark-haired girl threw open the closet door. Anne's little traveling case was missing from its accustomed place. Anne's favorite dresses were gone from her hangers.

Georgette sat down on the edge of the bed, half-stunned. Obviously, Anne was gone. What was she to do? Inform the house-mother? No, perhaps it would be best if Anne's disappearance were not made public. That let out calling up Anne's uncle, too. But how was she to find Anne by herself?

The scrap of notebook paper stuck in the mirror caught her eye. Quickly she unfolded it and read it.

"Georgette darling—I don't care what anyone says about Tony's background—we're on

Illustrated by Carol Johnson.

She glanced at Tony. He looked pleased with himself, almost too pleased. And in a few minutes she would be his wife.

our way to be married. Don't tell, PLEASE, until I give the word. Love, Anne."

She stared at the note for a moment, thinking fast. Anne and

Tony must be on their way to North Point, the marriage mill, some three hours driving distance from Midland. Somehow she must get there in time to stop Anne. But the cloppers must be half-way there by now. If she could only fly. Fly—!

AN amazingly short time later she stood earnestly talking with Dick Douglas.

"If you think," he was saying coldly, "that I have time to go chasing after that rattlebrained co-ed and her good-for-nothing young—"

Georgette interrupted him, her voice desperate. "Dick, you must. Anne doesn't know what she's doing. If I could only talk to her, I know she'd change her mind."

"But what can I—"

"Dick, you can get a plane and fly me to North Point in time to stop them." She caught her breath and added, "Can't you realize what the scandal would do to Anne's uncle—Arnold Dwight? It would break his heart."

That decided Dick. "All right, Georgette, I'll do it," he said grimly, "but get this straight. I'm not doing it for your friend Anne. Frankly, I don't think she's worth it. I'm doing it for you and for Arnold Dwight."

"I don't care whom you're doing it for," Georgette said, "but hurry!"

She glanced at her watch. Anne must have driven straight home from the airport, packed hastily, and started on her mad journey. That would have been an hour ago at least, it might have been more. If only she and Dick would be in time!

AT that very moment Tony's flashing blue roadster was streaking over the highway toward North Point. Anne huddled beside him. Her stubborn little chin was set and determined, but her lovely face was very pale.

She glanced at Tony. He looked pleased with himself, almost too pleased, she thought. As though conscious of her thoughts, he took

one hand from the wheel and began patting her arm with affectionate familiarity.

Almost instinctively she drew a little away from him. At her sudden movement he slowed down the car and looked down at her quickly.

"You aren't afraid, are you, Sweetheart?"

She shook her head. "You shouldn't be. You're mine, my Sweetheart, all mine!"

He stepped on the accelerator and the car leaped forward in a burst of speed. The girl hadn't better change her mind, he thought grimly. For a moment his mind dwelt on what the newspapers would say. This would show some of those stuck-up snobs who'd treated him like dirt. Once he was married to THE Anne Norris, they'd have to accept him. As far as Anne was concerned, he'd be able to manage her all right.

"Tony—"

"What is it, Sweetheart?"

"Tony, don't you think—perhaps we're being hasty?" She drew a quick breath. "Perhaps we ought to wait—"

"If you really cared anything about me, you wouldn't say such a thing," he said, his voice almost sulky.

"But—to run away like this—"

"You said you would. You said you'd marry me today. You aren't going to go back on your word, are you?"

"No—"

"I didn't think you would." His voice was warmly caressing.

Tony had been right in appealing to Anne's stubbornness. Yes, she'd said she would marry him that very day, and now she meant to go through with it.

At the same time, she had begun to feel uncomfortably frightened. If only she had a little more time to think! She told herself with a grim determination that she loved Tony Scott and that this runaway marriage was a glorious and romantic adventure.

A road sign flashed by. "North Point, 3 miles." Anne glanced at her watch, suddenly very lonely and cold and frightened. Within the hour, she'd be Tony Scott's wife!

(To Be Continued)

Communist domination of any of their unions. On the other hand, some prominent C. I. O. unions which are commonly supposed to be under Communist influence were pointedly left unrepresented on Hillman's committee.

Oliver Resignation Held Significant

Along with all of this—which tends to draw an important section of the C. I. O. farther and farther away from Lewis—these is the recent resignation of E. L. Oliver as boss of Labor's Non-Farlistan League, and his appointment as head of the American Labor Party in New York.

This league was formed originally as the means by which Lewis-led labor could work for Roosevelt. Oliver quit because he felt the league was tending to follow the Communist party line instead of the New Deal. But while his resignation leaves Lewis in full control of the league, Oliver is the man who has the intimate contact with labor leaders in the league's

Mrs. C. Anderson Dies Late Tuesday

Funeral Services to Be Held Here on Thursday

Mrs. Collie Anderson, 51, resident of Hempstead county for many years, died at her home near Hope Tuesday.

Funeral services will be held at the various local branches . . . and it would not be surprising if a number of these presently followed him out line instead of the New Deal. But yet unannounced extension of the American Labor Party, perhaps simply into an independent labor committee for Roosevelt.

Church of Christ at 4 o'clock Thursday afternoon with burial in Macedonia cemetery.

Surviving are: Five sons, Claude, Jess, Isaac, Sidney and Arthur of Hempstead county; four daughters, Mrs. C. W. Tate of Newton, Kan., Mrs. W. C. Abbott, Mrs. R. H. Tunstall, Mrs. Sneed Daniels all of Hempstead county, four sisters and one brother.

Bessarabia asserted its independence after the fall of the Czarist regime in Russia in 1917 and voluntarily united with Rumania.

Bruce Catton Says:

By BRUCE CATTON
NEA Washington Correspondent

John L. No Like Third Term, but High Union Officials Appear in Chicago as Ardent Third Term Boosters

CHICAGO — John L. Lewis is being out-pulled in the tug of war within the C. I. O.

First visible sign is appearance at the Democratic convention here in Chicago, as ardent third-term boosters of some of the C. I. O.'s most important officials. Among these are Philip Murray, C. I. O. vice president, and Thomas J. Kennedy, secretary of the United Mine workers, who are delegates from Pennsylvania, and R. J. Thomas, president of the United Automobile Workers, a delegate from Michigan.

Significance lies in the fact that Lewis has been bitterly and openly opposed to Roosevelt's renomination for many months.

Even more important is the way Lewis is being short-circuited in the matter of a "reapproachment" between the C. I. O. and the A. F. of L.

When President Roosevelt put C. I. O. Vice President Sidney Hillman on the national Defense Com-

mited the way was paved for an effective C. I. O.-A. F. of L. cooperation which, conceivably, might finally heal the breach between the two labor organizations . . . by next fall, say, after the presidential election.

Hillman, whose split with Lewis came partly because he wanted to make such a peace while Lewis did not, proceeded to set up a National Labor Policy Advisory Committee, composed of representatives of the A. F. of L., C. I. O. and the railway brotherhoods. It's this committee's job to smooth out jurisdictional fights and in general to see to it that the A. F. of L.-C. I. O. split doesn't get in the way of the defense program.

Hillman Maneuvers
Notable is the fact that the C. I. O. men put on this committee are leaders who have opposed Lewis of late, both on the third term issue and also on the matter of riding the C. I. O. of Communist influence—real or alleged. These men are: Emil Rieve, of the Textile Workers; Sherman Dalrymple, of the Rubber Workers; Van Bittner, of the Auto Workers; Van Bittner, of the United Mine workers; and Chester S. Golden, of the Steel Workers Organizing Committee.

There is no longer any suspicion of
